## BHC Emerging Viral Pathogen Claims: SARS-CoV-2 (COVID-19)

BHC, Inc. has six products that meet the EPA Emerging Viral Pathogen Claim for SARS-CoV-2 (COVID-19).

BruTab 6S®, Bru-Clean TbC 2®, Performex®, Performex RTU®, Patco Quat Clean IV® and Uniquat® Neutral Disinfectant 256 have demonstrated effectiveness against viruses similar to SARS-CoV-2 (COVID-19) on hard, non-porous surfaces.

Therefore BruTab 6S, Bru-Clean TbC 2, Performex, Performex RTU and Patco Quat Clean IV can be used against SARS-CoV-2 (COVID-19) when used in accordance with the directions for use against Norovirus on hard, non-porous surfaces. Uniquat Neutral Disinfectant 256 can be used against SARS-CoV-2 (COVID-19) when used in accordance with the directions for use against Human Coronavirus on hard, non-porous surfaces. Refer to CDC website at <https://www.cdc.gov/coronavirus/2019-ncov/index.html> for additional information.

# SARS-CoV-2 (COVID-19)

## What is it?

SARS-CoV-2 (COVID-19) is a respiratory illness that can spread from person to person. The virus that causes COVID-19 is a novel coronavirus that was first identified during an investigation into an outbreak in Wuhan, China.

## How is it transmitted?

SARS-CoV-2 (COVID-19) is spread by close person-to-person contact from droplets from a cough or sneeze, which can get into your mouth, nose, or lungs. Close contact is defined as being within approximately 6 feet of another person.

## What precautions can be taken?

Follow the standard precautions for avoiding respiratory viruses:

- Avoid close contact with anyone who is sick. If you are sick, stay home.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand rub (ABHR) with greater than 60% ethanol or 70% isopropanol.
- Cover your mouth and nose with your elbow or tissue when you cough or sneeze. Throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.

## What are the symptoms?

Patients with COVID-19 have had mild to severe respiratory illness with symptoms of:

- Fever
- Chills
- Headache
- Cough
- Repeated shaking with chills
- Sore throat
- Shortness of breath
- Muscle pain
- New loss of taste or smell

## What is the treatment?

There is no vaccine or specific antiviral treatment for COVID-19. Treatment is directed at relieving symptoms, drink plenty of fluids and get plenty of rest. If symptoms persist, contact your healthcare provider.

## How can BHC help?

Use one of our disinfectants that meet EPA guidelines for emerging viral pathogens, with demonstrated effectiveness against viruses similar to SARS-CoV-2 (COVID-19) on hard non-porous surfaces for daily facility cleaning and disinfection.

Make sure your infection prevention and control program includes cleaning and disinfection on all “high touch” surfaces daily, including:

- Counters
- Doorknobs
- Toilets
- Keyboards
- Tabletops
- Bathroom fixtures
- Phones
