

Premier Series

Portable Hot Water Handwashing Sink

ADD ELEGANCE TO YOUR PORTABLE SINK with a well-defined cherry, maple or mahogany natural wood-grain finish, or enhance your event with our solid color options. Elegance and durability is exactly what you will receive with any of our standard cabinet finishes available on the **Premier Series**. Our flagship product line, and most popular Ozark River Portable Sink®, features a convenient cabinet size that is perfectly suited for restaurants, food/beverage serving, hospitality, spas, classrooms, medical and health rooms and many other commercial applications.

The Premier features a millwork cabinet and integrated ABS. All our Premier models are NSF certified and include a stainless steel bottom.

Handwashing Compliance

Ozark River is the Standard

NSF® CERTIFICATION

NSF® Certification is a key factor separating Ozark River Portable Sinks® from its competitors. NSF® is the most recognized sanitation standard in many industries. Certification is critical to help ensure Ozark River Portable Sinks® complies with most state and local handwashing codes.

SACERS RATING

SACERS provides an easy to use resource for defining high-quality care and assessing levels of quality in child care programs. Ozark River Portable Sinks directly affect SACERS, increasing the rating.

SACERS Rating: 12 - 3.4 - 5.1 - 5.2

ENERGY AND WATER SAVINGS

Our reliable, instant hot water system uses a minimal amount of energy to heat the water. No preheating of water is required. Sinks also dispense a sensible 1/2 gallon of water per minute (GPM), providing a perfect, economical stream of water for handwashing while conserving precious water resources.

Consult with your state and local environmental health official to confirm usage of portable sinks in place of plumbing.
