Introducing TAD™

A wearable **temperature alert device** that brings peace of mind to students, employees, their employer, sport fans and all those who interact with them to feel and be **TAD SAFE!**

Brand Your Band

TAD™ bands can be private labeled to match your brand's logo. **Speak to one of our advisors today.**

Peace of Mind

When many others are fearful and anxious about the "new normal," those around you can rest easy. With **TAD™**, the "new normal" is more like *back to normal*. Let's get America going again.

TAD SAFE™ Facility

Your patrons will be confident of their well-being when you show them you are a **TAD SAFE™** facility. Increase the amount of foot traffic into your business with a clear identifier - *your focus is on providing a level of safety many others are*

Simple & Versatile

TAD™ keeps you safe, is easy to wear, and is easy to use. Work, play, exercise and more while **TAD™** measures your temperature for you at regular intervals OR with the push of a button.

FEATURES

- Alerts wearer of body temperature changes to prevent the possible spread of viral or bacterial infections

"Body temperature is the most commonly used vital sign to identify illness by clinicians across all specialties. Being able to identify early fluctuations in temperature has the potential to save lives and keep those around us safe. With TAD™, the most common used vital sign is within an arm's length."

-Dr. Julian Trivino
Board Certified Emergency Physician, Physician Leader

DISCLAIMER

TAD™ is solely intended to monitor and alert an individual of elevated temperatures. If TAD™ illuminates amber or red, the wearer should remove the unit and place under their armpit (axillary temperature) for up to 5 minutes to receive a secondary reading. TAD™ is not a substitute for a clinical or rectal thermometer. Always use a clinical thermometer when high accuracy body temperature measurements are required. Please consult your medical professional should a fever occur. TAD™ is not intended to diagnose, treat, cure, or prevent any sicknesses or diseases. If you experience a medical emergency, immediately seek care and consult with a medical professional. We are not responsible for any health problems that may result from your use of the TAD™ product.
