#### Description and Performance:

Sellstrom introduces their new premium goggle with detachable face shield. Stylish soft goggle body conforms to your face. Comfortable, snug seal provides maximum protection against liquids and dust with optically correct polycarbonate lens which provide exceptional panoramic views. Specially designed to fit over most prescription eyewear with indirect vents along with anti-fog lens coating which provides superior ventilation and a safe, fog-free working environment. Indirect vents provide superior protection against dust and chemical splashes. The GPS300 features an added polycarbonate face shield designed to protect your face from splash, dust and flying debris. The face shield is easily detachable and swivel mounted to the goggle. The goggle has an extra-wide flame retardant strap for superior comfort and safety. Provides 99.9% UV protection and is ideal for industrial, mining, cutting, grinding, construction, woodworking, machine shop and pressure washing applications.
