GEN2

ARMOR VEST BY VARANUS

The Varanus TACTICAL GEN2 Vest is our most Elite and High Quality Vest, built with 600 denier nylon with MOLLE on front and back as well as extra MOLLE on the Cummerbund for more carrying capacity. This sturdy vest has reinforced unions and quality velcro.

Its interior compartments are designed to carry Varanus IIIA Panels, offering Ballistic Protection on front, back and overlapping on the sides for extra coverage. The TACTICAL GEN2 includes front, side and back pockets for the addition of Level III, III+ or level IV ballistic plates for protection from high velocity rifle rounds.
